

Thanks for downloading this package.

This is a FREE sample package taken from the Village Exteriors Kit contents.

Combining Interiors & Exteriors:

1. Download and install the **Blacksmith's Forge** package.
(*Interiors Example package*)
2. Download and install the **Blacksmith** package to the same project.
(*Exteriors Example package*)
3. Go to <http://www.3dforge.co.za> and follow the instructions to download the Thunder Hammer scene file and install again in the same project space.
4. Open and enjoy the
ThunderHammer_Interiors_PLUS_Exteriors scene.

Please could you rate and possible review the package, it really assist others in making informed purchases when spending there hard earned money :)

Village Exteriors Kit:

There is a long FREE Update road map on the Unity Forum
Head on over and add your suggestions, they might make there way in future updates.

<http://forum.unity3d.com/threads/3dforge-exteriors.316736/>

and be sure to check regularly for notification of extra FREE content that has been added.

Enjoy Cobus
